## ABOUT OUR ASSOCIATION

The American Real Estate and Urban Economics Association (AREUEA) originated at the 1964 meeting of the Allied Social Science Association (ASSA) in Chicago. AREUEA grew from a need for more information and analysis in the fields of real estate development, planning, and economics.

AREUEA has advanced the scope of knowledge in these disciplines and has facilitated the exchange of information and opinions among academic, professional, and governmental people who are concerned with urban economics and real estate issues.

AREUEA's journal, *Real Estate Economics*, is published quarterly and is distributed on a calendar year subscription basis. The journal contains research and scholarly studies of current and emerging real estate issues.

The Association holds three conferences each year. The conferences are an excellent opportunity for members and non-members to catch up on the most up-to-date research available in the fields of real estate and urban economics.

### AREUEA Sponsorships
