

# 4th Workshop on Residential Housing Markets Balancing Sustainability and Affordability in the Building Sector

Are sustainable buildings and affordable housing two competing goals? How are they affected by the energy transition and climate change? What policies do we need for the future?

This workshop aims to bring together researchers working on a broad range of aspects of residential housing markets in the context of energy and environmental economics, and beyond. While we are interested in general submissions related to residential housing, this time we particularly encourage the submission of proposals related to sustainability and affordability.

## Keynote Speakers

[Erica Myers](#)

University of Calgary

[Peter Christensen](#)

UC Santa Cruz

## Key facts

- When? **8-10 September 2025**
- Where? **University of Zurich, Switzerland**
- Contact: [harald.mayr@econ.uzh.ch](mailto:harald.mayr@econ.uzh.ch)

Please submit your extended abstract or full paper [here](#) by April 4, 2025. Authors of accepted proposals will be notified in due course.

The workshop has no registration fee. Participants must cover their own travel and accommodation costs.

## Organizing Committee

Sofie R Waltl, University of Cambridge

Harald Mayr, University of Zurich

The workshop is funded by the Swiss National Science Fund (Project 201958) and supported by the University of Zurich.
